

DynaNet Healthcare

Human + AI. The Fast Lane to Healthcare Revenue.

Maximize revenue, minimize burnout with automation that has a human touch.

Stand Out—Don't Settle for Average

Generic revenue cycle management

Blends in and holds you back. DynaNet Healthcare's Human + AI model is designed to be **chosen**—for real results that transform your practice's financial performance.

Our hybrid approach

Combines cutting-edge automation with expert human oversight to deliver what traditional RCM solutions can't: efficiency without sacrificing quality.

What Human + AI Solves

Burnout

Administrative burden significantly reduced through intelligent automation and expert teams handling complex cases

Staff freed to focus on patient-centered activities instead of paperwork

Care Delays

Eliminated with 24/7 managed workflows that accelerate approvals and verifications

Real-time eligibility checks and streamlined prior authorization processes

Revenue Loss

Recovered through proactive, seamless processes that identify and resolve issues before they impact your bottom line

Reduction in denied claims and increased first-pass approval rates

Built for organizations of any size—anywhere in the U.S.

The DynaNet Healthcare Engine

Intake

Streamlined patient data collection with AI verification

Eligibility

Automated insurance verification (AI)

Prior Authorization

Accelerated approvals (AI + Human)

Scribing

Real-time documentation (Human)

Coding

Precise coding & charge entry (AI + Human)

Claims

Clean claims submission (AI pre-check + Human QA)

Experience the Difference

Metric	Before	With DynaNet Healthcare
Prior Authorization Time	7–15 days	1–3 days
Denial Rate	8%	2% or less
Approval Rate	70–80%	90–95%+
Staff Workload	20+ min/task	Offloaded by Human + AI
Revenue	Lost	Accelerated, Recovered

These dramatic improvements aren't just statistics—they represent real operational efficiencies that directly impact your practice's financial health and staff satisfaction.

Everything Clinics Need—In One Place

End-to-end Prior Authorization

AI-powered submission preparation with human specialists handling exceptions and appeals for maximum approval rates

Real-Time Medical Scribing

Expert human scribes capture nuanced clinical details, ensuring accurate documentation without burdening providers

Automated Insurance/COB

AI-driven verification with real-time eligibility checks and coordination of benefits that eliminate coverage surprises

24/7 Virtual Front Desk

Always-available patient support combining AI efficiency with human empathy for exceptional service experience

Certified Coding & Clean Claims

AI pre-screening with certified coder review ensures maximum reimbursement and minimal denials

Security You Can Trust

HIPAA Compliant

Complete compliance with all healthcare privacy regulations and regular third-party audits

ISO 27001 Certified

Rigorous information security management systems protecting all data

PCI DSS & GDPR

Comprehensive payment security and data protection standards

\$1M E&O Insured

Additional peace of mind with substantial error & omissions coverage

Technology for reliability, people for accountability.

Reliable Results, Rapid Impact

40%

Faster Authorizations

30-40% reduction in authorization processing times, getting patients the care they need sooner

73%

Fewer Denials

Dramatic reduction in claim denials through proactive verification and intelligent coding

94%+

First-Pass Approval

Industry-leading first-pass approval rate that accelerates your revenue cycle

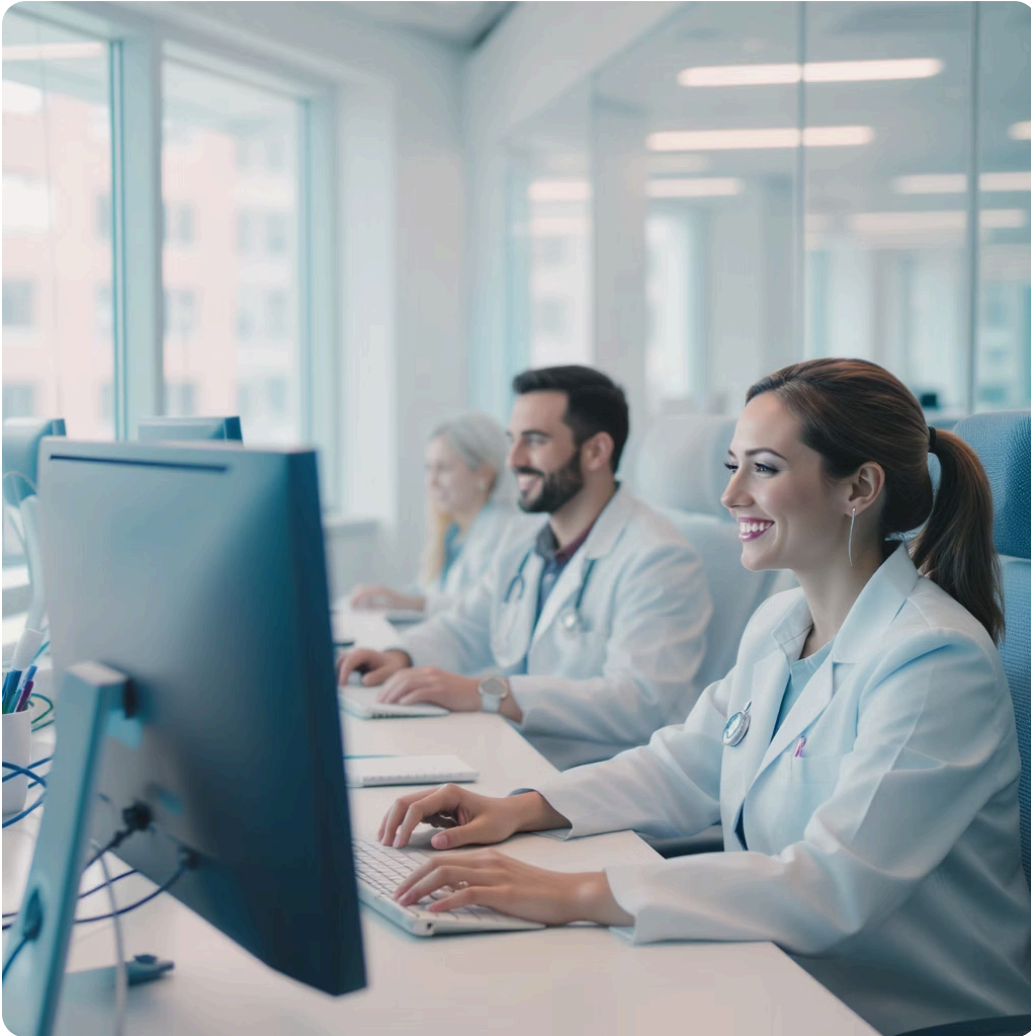

Reduced A/R Days

Significantly less accounts receivable over 90 days, improving cash flow predictability

All due to Human + AI teamwork and proactive oversight.

Effortless Patient & Staff Experience

Instant Coverage Verification

Real-time eligibility checks eliminate patient frustration and prevent surprise billing issues

Streamlined Workflows

Smooth intake, scheduling, and insurance processes that reduce administrative friction

Focus on Care

Staff liberated from paperwork to concentrate on meaningful patient interactions

Compliance & Integration, Made Easy

Real-time Verification
